

ANIMAL BIRTHDAY PREDICTOR (ABP)

6-Step Wizard, Foal & Puppy Suites, PDF Engine, Due Date Tools & QA Suite

MILESTONE 3 DELIVERABLES
Production Release Report

Status: **100% COMPLETED**
QA Suite: 321 / 321 Tests Passed

1. Milestone 3 Deliverables & Scope Summary

Milestone 3 represents the complete production maturation of the Animal Birthday Predictor. It expands the platform with an interactive 6-Step Equine Breeding Wizard, full Equine Foal & Canine Puppy pediatric management, multi-role Contacts Directory (Vets, Farriers, Dentists, Buyers), Stud Foaling Diary, Standalone Due Date Calculator, Luxury PDF Certificate Engine, Celebratory 1-2-3 Foaling Guidance, Knowledge Base / FAQs, and a comprehensive 321-test automated QA test suite.

Feature Component	Architecture & Production Deliverable	Status
6-Step Equine Breeding Wizard	Sequential guided wizard: Donor Mare, Stallion/Cover Date, Recipient Carrier, Vaccines/Care, Emergency Contacts, and Due Date calculation.	100% OK
Foal Management & Birth Log	Foal registration, gelded/filly/colt categorization, buyer records, sold status, and 3-point markings registry.	100% OK
Canine Puppy Pediatric Suite	Puppy registration, microchip, buyer info, weight charts, and 11-step health schedule tracking dual Date Given & Date Due pairs.	100% OK
Contacts Directory & Emergency Roles	Specialized contact registry with categorized tabs (Vets, Farriers, Dentists, Buyers) and direct phone/email launchers.	100% OK
Stud Foaling Diary & Due Date Calculator	Broodmare movement tracking, overdue alerts, and fast multi-species calculation with timeline visualization.	100% OK
PDF Certificate & Document Engine	Vectorized luxury Pedigree Certificate and printable Stud Foaling Diary PDF generator.	100% OK
Celebration Screen (1-2-3 Foaling Rule)	Arrival celebration screen with golden crest and critical first-hours veterinary guideline (Standing, Nursing, Placenta passing).	100% OK
Comprehensive QA & Test Suite	321 Automated unit, widget, and integration tests ensuring zero regressions, zero layout overflows, and robust security.	100% OK (321/321)

2. Technical Highlights & Quality Assurance

- A. Dual-Date Canine Health Model:** Implemented explicit tracking of both date_given and date_due for each pediatric milestone (Worming at 2, 4, 6, 8 wks; Core Vaccinations at 6-8, 10-12, 14-16 wks; Vet checks and Microchip), ensuring full transparency for puppy buyers.
- B. Client-Side PDF Generation:** Powered by Dart pdf & printing libraries, generating high-DPI printable documents with custom typography, brand crests, and dynamic QR codes client-side with 0 network latency.
- C. 321-Test Automated Verification:** Comprehensive testing across unit models, database repositories, RLS security isolation, responsive screen layouts (320px mobile to 1280px desktop), and dirty-form unsaved changes detection.

3. Milestone 3 Visual Implementation Exhibits

The following gallery showcases unaltered visual evidence demonstrating all Milestone 3 capabilities across the ABP platform:
