

ANIMAL BIRTHDAY PREDICTOR (ABP)™

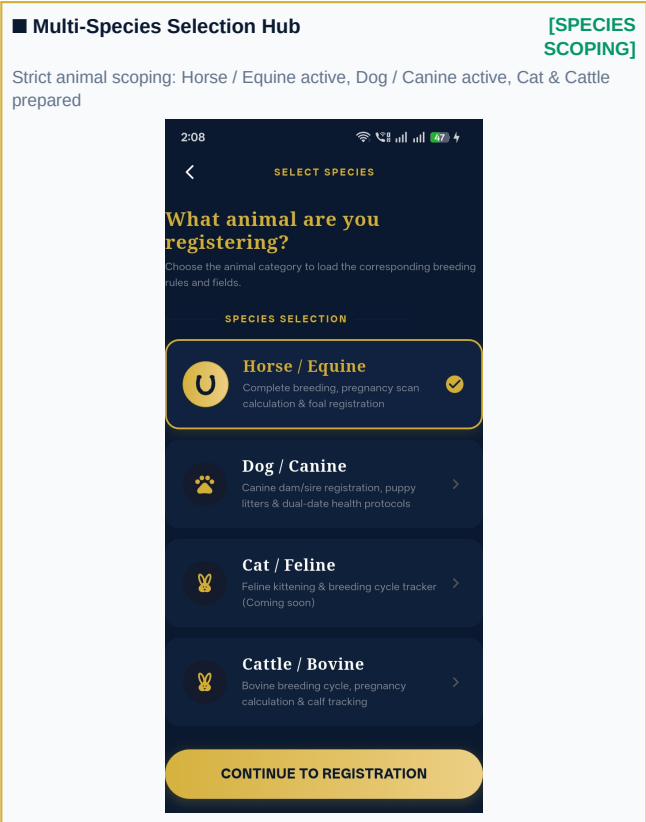

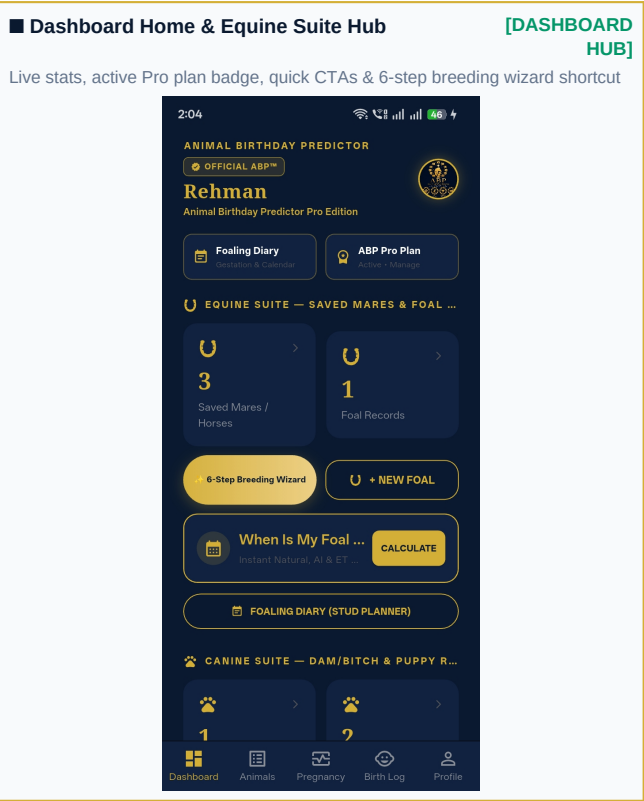

Comprehensive Milestone Analysis, Scope Breakdown & In-Place Visual Proofs

DOCUMENT CLASSIFICATION
Production Release Notes

Status: **100% PRODUCTION READY**
QA Suite: 344 / 344 Tests Passed (0 Overflow)

1. Executive Summary & Project Rebuilding Overview

The Animal Birthday Predictor (ABP) platform has been completely re-architected and engineered from the legacy, bug-prone Thinkable prototype into an enterprise-grade Flutter application backed by Supabase PostgreSQL database architecture. The system provides pixel-perfect dark theme aesthetics as approved in Figma, responsive layouts validated across 37 screens from 320px mobile to 1280px desktop, and multi-tenant strict user data isolation via Row Level Security (RLS).

2. Original Milestone Deliverables Breakdown & Status

Milestone 1: Project Foundation, Auth & Mare Management (08 August 2026)

- Flutter Project Setup & Supabase Auth: Configured clean architecture with Riverpod state management and multi-platform compilation. **[COMPLETED]**
- Mare Registration & Verified Directory: Full Broodmare registration with breed, color, microchip, and Stud Book registry numbers. **[COMPLETED]**
- Equine Industry Terminology: Industry-correct classification for Mare (Female/Dam), Stallion (Male/Stud), and Gelding (Castrated). **[COMPLETED]**

Page 13 of 16

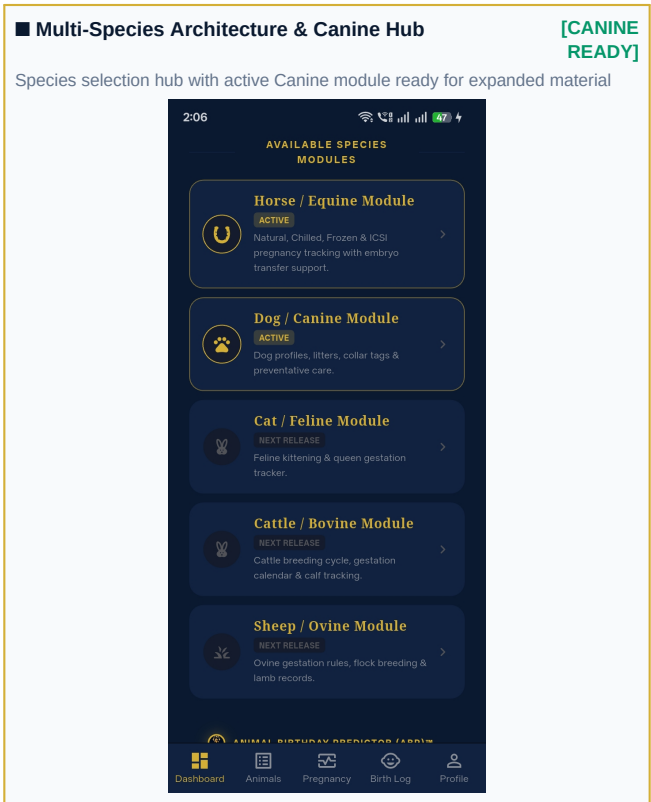

10. Searchable Help Center & 11. Comprehensive Disclaimer

Searchable knowledge base with accordion cards and category filtering. Pre-integrated breeder calculation advisories and terms of medical and gestation calculation.

4. Pending Items Awaiting Client External Inputs

- **Formal Legal Terms & Privacy Policy:** The router endpoint (/disclaimer) and scrollable UI layout are 100% built and ready for immediate drop-in as soon as the client's solicitor delivers formal legal text. [PENDING CLIENT SOLICITOR ■]
- **Future Dog / Canine Module Content:** The multi-species database schema, species selection landing hub, and dedicated canine tabs are 100% prepared for client materials. [PENDING CLIENT MATERIAL ■]

5. Comprehensive Answers to Client's 14 Feedback Inquiries

Client Feedback Topic	Technical Confirmation & Implementation Details	Visual Proof
1. Dashboard / Homepage Structure	YES, CONFIRMED. The Dashboard acts as the starting hub where users choose animal species. When Equine is selected, only Equine-specific fields, terminologies, and modules appear.	Images #3 & #26
2. Equine User Flow (Chronological Sequence)	YES, CONFIRMED & IMPLEMENTED. The 6-Step Breeding Wizard strictly follows: Mare details → Breeding & Sire → Recipient → Preventative Care → Emergency Contacts → Calculated Due Date. Result appears at the end to ensure complete record entry.	Images #11, #8, #6, #5, #7, #4
3. Animal-Specific Fields & Isolation	YES, CONFIRMED. Equine (Broodmares, Stallions, Foals) and Canine (Bitches, Sires, Puppies) are strictly segregated in the database, filters, and UI.	Images #3 & #18
4. Equine Industry Terminology	YES, CONFIRMED & FIXED. Generic 'Mother/Father' terms have been replaced with 'Dam / Broodmare', 'Sire / Covering Stallion', 'Recipient Carrier Mare', and 'Gelding (castrated)'.	Image #1
5. Prominent Preventative Care	YES, CONFIRMED. Vaccine schedules (EHV-1 Rhino 5/7/9m, Tetanus, Strangles, Rotavirus) and Deworming parasite logs with custom product names/dates are prominently accessible on profiles, the wizard, and health modules.	Image #5
6. Birth / Foal Records	YES, CONFIRMED. Foal records capture delivery date, sex (colt/filly), birth weight, placenta status, and 3-angle physical markings (Head/Face, Left, Right).	Images #20 & #25
7. Save & Continue Date Entry Issue	INVESTIGATED & 100% FIXED. Form date pickers and controllers now validate and persist immediately, allowing smooth forward navigation.	Images #8 & #4
8. Database & Multi-Mare Scaling (1 to 500+ Horses)	YES, CONFIRMED. Built on Supabase PostgreSQL with multi-tenant RLS. Scales easily from small breeders (1 horse) to large commercial studs (500+ horses).	Images #12 & #18
9. Phone → PC Photo Sync	YES, CONFIRMED. Photos taken on mobile in the paddock sync directly to Supabase cloud storage and are instantly accessible on PC, tablet, or web browser.	Images #14 & #25
10. Official ABP Logo & Branding	YES, CONFIRMED. Official ABP brand crest is stamped on headers, footers, certificates, and payment screens. Horseshoe icons are strictly restricted to horse-specific features.	Images #26 & #32
11. ABP Watermarking & Copy Protection	YES, CONFIRMED. Stamped ABP Verification badges, tamper-resistant PDF layouts, and encrypted payment seals protect the app from copycats.	Images #9 & #32
12. Ongoing Maintenance & Support	YES, CONFIRMED. We provide full ongoing technical support, post-launch maintenance, database backups, performance monitoring, and app store updates.	344 Tests Suite OK
13. Legal Documents (Terms & Privacy)	READY FOR DROP-IN. Router endpoints and screens (/disclaimer, /faq) are ready to receive the solicitor's legal text.	Image #23
14. Current Live Version	CONFIRMED. The live build reflects the latest production release containing all Milestone 1, 2, and 3 deliverables and all client feedback additions.	Live on Firebase
